PROJECTS

MY PORTFOLIO

This was created using HTML and CSS and is my own website.

WEATHER APP

It's a simple web application. It shows weather data including average daily temperature, maximum and minimum temperature, humidity, and wind speed.

QUIZ APP

Quiz app panel will be asked 10 questions one at a time, and you can choose an answer from the list. You can also grant points for the right answers and take points away for the wrong ones.

FIRE FIGHTING ROBOT (2020)

An Embedded Systems project was used to construct the firefighting robot. The robot uses flame sensors to detect fire and a corresponding extinguisher to put it out. Arduino

EXTRA CURRICULAR
